Total Points (It is your job to add up the points) _____

1. If you do not total your points, I will not do so for you. At the end of the quarter I am very busy and do not have time to calculate this for you.
2. In the event that I document you cheated/plagiarized any assignment, all extra credit points are automatically forfeited.

EXTRA CREDIT

You can mix and match the options below, but I will award only 20 points total.

How can I earn extra credit?

Step 1: I allow you to earn up to 20 points of extra credit.

Step 2: You pick from the options listed below.

Special Note: If I determine you have plagiarized or otherwise cheated in the course all extra credit is forfeited.

Choices: This first set of options does NOT require a Reaction Paper, but do follow the instructions outlined for each choice.

You can't save each attempt, so print at end of each effort and collect.

The way you can document this is by printing the last page of the game. If it does not print well, you can use the <shift>+<Prnt Scrn> to copy the page and open a word document and use <ctrl>+v to paste the page. Then print.
